Workspace Macro Pro

The easy-to-use macro recorder ■ Just record your actions and replay ■ Schedule recorded tasks ■ Replay repetitive tasks at 'Turbo' speed ■ Empower your employees ■ NO programming required ■ Use it for any task, can be used by anyone

Save time. Work SMART!
Give yourself that competitive edge.

How can Workspace Macro Pro help?

Corporate executives and managers everywhere find the need to mobilize their workforce to work more productively and competitively. Workspace Macro Pro can help you increase per employee revenue and reduce manpower costs while increasing employee morale.

Using Workspace Macro Pro can also help you improve the quality of the work by reducing human error. There are several computer tasks that are repetitive and prone to error. Using Workspace Macro Pro, you can automate these repetitive tasks. This alienates monotony as well as reduces the chance of human error.

It motivates workers to cut out time consuming repetitive tasks and use that time more effectively. No programming experience necessary. Any computer user can do this. By recording various front and back office tasks, employees can automate various processes. It also offers advanced features for the more savvy users. Empower your employees to work more efficiently!

"I want to thank you guys, this is awesome! I do an hour's worth of clicks now faster than the eye can see. It's the perfect program for repetition and so easy to use. If you need a task automated no matter how complex, then this is the program for you and you can quote me on that. 30 years of computing experience says this is the best to date."

- Launch-n-Go is a quick start/ hotkey software that provides hotkey and quickstart access to all Workspace Macro Pro tasks.

"I cannot recommend this product enough. I basically used it to create a task macro that fires up each night and FTPs some files to my website, then confirms the transfer by printing out a report of the transfers success. The product is easy to use, robust and did exactly what I needed it to do. HIGHLY RECOMMENDED!!!"
